Central Beds number in employment	133,000	132,000	132,800	138,300	137,300	135,600																									
<p>Current performance: In June 2016 there were 135,600 people aged 16-64 in employment, 1,700 down from the previous period. Central Bedfordshire remains above comparator areas, and is 3.4% above the national rate of employment. However, this is below the Council’s 5% target. This decrease is well within the statistical confidence intervals of the indicator and this could explain the fall. A corresponding increase in the levels of claimant count and modelled unemployment rate has not been witnessed.</p> <p>Planned actions: This indicator will be closely reviewed to monitor future changes.</p>

Good is:	High	Unit	£/week
Date	Dec 2013	Dec 2014	Dec 2015
Performance	£478.00	£478.50	£478.50
Current performance: There has been no annual change as the level has remained the same, following a revision to the previous year's estimate.			
Planned actions: Ongoing promotion of the area to attract new investment and high value jobs; a sector focus including the Food Enterprise Zone to attract new high value employment opportunities to the area.

<p>Current performance: There were 482 new homes completed in Quarter 2 (925 completed between April to September 2016) which is on track to meet the annual target.</p> <p>The target for this indicator is 1,475 per annum based on the Objectively Assessed Need which is 29,500 for the period 2011-2031. This figure is published in our Strategic Housing Market Assessment (Summer 2015).</p>

Current performance: The increase in the number of new vacant units is due to an increase of 1 for Biggleswade, 3 in Dunstable and 3 in Leighton Buzzard. It is apparent that 2 of Leighton Buzzard's vacant units may soon be filled, having let or sold signs, and the 1 empty retail unit in Houghton Regis is due to open very soon. Both Ampthill and Flitwick have no empty retail units.

Performance	74%	70%																	
<p>Current performance: In line with the majority of individual service indicators, there has been no significant shift in levels of satisfaction with the quality of Council services overall.</p> <p>Full surveys are now being run every two years, with reported results based on a robust sample of 1200 people. New methodology now excludes the ‘don’t know’ responses, and the historic data has been revised to ensure consistency of results in this same format.</p> <p>Although the direction of travel is presented on the scorecard,, only changes of 6% or more are actually considered to be significant.</p>				<div><div>Target</div><div>Actual</div><table><thead><tr><th>Period</th><th>Target</th><th>Actual</th></tr></thead><tbody><tr><td>Sep 2014</td><td>74%</td><td>70%</td></tr><tr><td>Sep 2016</td><td>74%</td><td>70%</td></tr></tbody></table></div>							Period	Target	Actual	Sep 2014	74%	70%	Sep 2016	74%	70%

Kg	147.09	137.79	134.67	133.51	142.38						
<p>Current performance:</p> <p>The kg per household of black bin waste includes the wood tonnages (now recovery and not recycling) and reflects the general increase in tonnages from housing growth collected through the kerbside residual collections. It has reduced from Q1 2015/16 because Amptill HWRC was closed for refurbishment which reduced the tonnages collected overall from the HWRCs.</p>

Current performance:
Throughput for the period Jul-Sep 2016 increase by 104,094 visits (28%) compared to the same period in 2015/16. While much can be attributed to the new Flitwick LC, participation at Dunstable increased due to a large event and fitness use following a new specific membership offer for the centre.

Planned actions:
Inspection and monitoring regime has recently been strengthened that will enable closer working with leisure contractors. This includes opportunity to review co-operation on programming and pathways including developing the exercise referral offer.
