| STROUO1 | Charles Warboys | Charles Warboys | Feb 2019 | 5 | | 33 25 Financial/ Economic | Significant reduction or redirection of funding/ lack of certainty | in Continuing financial pressures due to Central Government cuts, or loss of grant or other funding (e.g. Council Tax Support, Business Rates Retention, New Homes Bonus). Fairer Funding Review, Business Rates Retention £13.8m savings planned for 2018/19. (£14.8M in 2019/20) With the switch of funding streams to other bodies, there is also a risk of failing to exert appropriate influence on decision making bodies who are receiving redirected funding e.g. SEMLEP. With the introduction of pooled funding for Better Care Plans there is a risk of failing to deliver the required objectives. There is a potential risk of clawback arising from the introduction of integrated budgets within NHS. Additional responsibilities may be transferred to local government without adequate additional resources. General uncertainty around future government policies e.g. • Impact of New Living Wage • Impact of Continuing Healthcare decisions or both Children and Adults • Issues relating to Housing Need, including Homelessness and Social Housing Rents • Certain Loss of RSG • Impact of change in Business Rate Retention • Better Care Fund • Risks/opportunities arising as a result of the recent "Brexit" referendum, including uncertainty over future European funding • NHS changes may result in significant cost shunting. | 5. Difficulties in planning ahead | There is robust monthly reviews of budgets including the proposed savings The EIG (Efficiencies Implementation Group) meets monthly to review progress of proposed savings (2018/19) and replaced by the MTFP Efficiencies Workstream reporting to the IE&MB in 2019/20 Four Year Settlement in place The Certainty Deal (gives certainty re RSG settlement) Increase in Council Tax Social Care Levy introduced Four Year settlement in place. Ensure that compensatory savings are found where savings are not delivered through the above Build up of earmarked and general reserves to act as a short term buffer (including New Homes Bonus) Robust MTTPF, forecasting, and increasing focus on long term horizon Establish good partnership working with all relevant bodies Ensure CBC has representation on appropriate boards e.g. SEMLEP, Police Responding to consultations Networking Longer term planning Building up reserves | 4 | | 12 Re | | 12 | Continue with current mitigations. |
