No changes are proposed to the means of access and there are no proposed changes to the level of on site parking provision, stated to be 13 spaces. It is not anticipated that there will be any change in the number of staff employed at the school as a result of the proposal. The Design and Access Statement advises that the proposal will allow an increase in classroom space through the relocation of the school hall as well as create an additional classroom to meet the demand of the school. Recommends an appropriate condition to secure a Travel Plan.

**Additional Conditions**

Pupil travel patterns and barriers to sustainable development  
measures to reduce car use

an action plan detailing targets and a timetable for implementing appropriate measures and plans for annual monitoring and review for 5 years

All measures agreed therein shall be undertaken in accordance with the approved plan. There shall be an annual review of the Travel plan (for a period of 5 years from the dated of the approval of the Plan) to monitor progress in meeting the targets for reducing car journeys generated by the proposal and this shall be submitted to and approved by the Local planning Authority
