TO EACH MEMBER OF THE COUNCIL

19 January 2016

Dear Councillor

COUNCIL - Thursday 21 January 2016

Further to the Agenda and papers for the above meeting, previously circulated, please find attached the following recommendation from the Executive held on 12 January 2016, which was marked "to follow":-

9. Recommendations from the Executive 12 January 2016

To consider a recommendation from the meeting of the Executive held on 12 January 2016 and answer questions asked under Rule No. 13.1.

Proposed Drainage Byelaws for Flood Risk Management.

Should you have any queries regarding the above please contact Democratic Services on Tel: 0300 300 4040.

Yours sincerely

Helen Bell,
Committee Services Officer

COUNCIL MEETING – 21 January 2016

**Recommendation to Council from the Executive meeting
held on 12 January 2016**

E/15/86. Proposal to make Drainage Byelaws

The Executive considered a report from the Executive Member for Community Services that proposed byelaws in connection with drainage matters to assist the Council in meeting its statutory duties and to help reduce the risk of flooding for local communities. The primary purpose of these proposed byelaws was to ensure efficient drainage within the Council's area. The associated benefits of making the proposed byelaws were:-

- managing and reducing flood risk;
- improving water quality;
- improving biodiversity;
- ensuring drainage infrastructure would be maintained and adapted over time; and
- improving the quality of life for people by improving the quality of public spaces and the water environment.

In response to a question the Director of Regeneration and Business confirmed that Local Planning Authorities must satisfy themselves that the proposed minimum standard of operation of Sustainable Drainage Systems (SuDS) on new developments was appropriate. Drainage systems would also need to comply with the Council's Sustainable Drainage Policy.

Reason for decision: To enable the Council to monitor and enforce the efficiency of flood defences and support, work with developers and local communities to reduce flood risk now and in the future.

RESOLVED

that the proposal to make drainage byelaws as set out in Appendix 1 to the report be endorsed.

RECOMMENDED to Council

that the byelaws following completion of the stakeholder consultation be adopted.
