Question/Statement from Mr David Croft in relation to Licensed premises at Sandy known as Island Bar and Restaurant

Mr Croft in his question to Council referred to problems local residents were encountering with licensed premises in Sandy known as the Island Bar and Restaurant. He explained that since moving into the area there had been a significant change of use of the premises from a quiet wine bar into a pub which was licensed till 1.00am. He referred to noise outside the pub at night associated with drinking and smoking and which was particularly bad on Friday and Saturday evenings when there could be up to 100 people. He explained it was not unusual for his children to be woken 4 or 5 times a night from the noise. He concluded by questioning why residents had not had the chance to object to a change of use of the premises and asked what the Council was doing to protect the interests of residents in the future.

Response by Councillor D McVicar, Portfolio Holder for Safer and Stronger Communities

Councillor D McVicar thanked Mr Croft for his question. He explained that under the terms of the Licensing Act there had been no change of use from the license granted in 2008 as it was still licensed premises, although there may have been a variation of the licence to extend the opening hours and also to include regulated entertainment. There was no right, however, for the premises to be causing a nuisance and such issues were taken seriously by the Council. He explained that separate complaints were being investigated by the Sustainable Communities Directorate and the Police were also investigating allegations made by members of the public. Councillor McVicar explained that he could not comment on ongoing investigations but gave assurance that the Council took such complaints seriously and would take action appropriate to the outcome of the investigation.

C/09/20 **Appointment of Chief Executive**
