Background

10. One of the purposes of the Audit Committee is to provide independent assurance on the adequacy of the risk management framework and the associated control environment.
11. To further strengthen the Audit Committee's role in monitoring the internal control environment within the Council, Internal Audit has developed a system for monitoring and reporting progress against high risk recommendations arising from internal audit inspections.
12. This paper represents the regular summary of high risk recommendations made to date, along with the progress made against implementation of those recommendations.

Tracking High Risk Recommendations

13. This report sets out the position as at the end of May 2013. In order to distinguish between the more recent recommendations made during 2012/13 and older outstanding recommendations, the tracking has been presented as two tables – one summarising the reports issued prior to April 2012 and captured in previous monitoring reports to the Committee and the second table summarising reports containing high risk recommendations issued since the April 2012 Committee.

14. Appendix A provides detail of progress made to date in addressing high risk recommendations contained in reports issued prior to April 2012 and previously reported to the Committee.
15. Appendix C provides details of the remaining 2 high risk recommendations where implementation of the recommendation is running behind planned completion dates. The Appendix includes the rationale behind the audit recommendation and an explanation for the deferred implementation.
16. **Table 1 – Summary of outstanding recommendations made prior to April 2012**

Review	Number of Outstanding Recommendations
Payroll 2009-10	1
SAP Access and Security (incl IT DTR) 2009/10	1
Total	2

17. Since the last Committee two high recommendations have been addressed. These relate to the Main Accounting System and Teachers' Pensions. A full audit review of both these areas is included within the 2013/14 Audit Plan, to provide assurance that the revised procedures are robust.
18. Appendix B sets out the reports issued since the April 2012 Audit Committee that contain further high risk recommendations. The table below provides a summary by Directorate. Three reports containing high risk recommendations have been issued since the last update.

19. **Table 2 - Summary of Additional High Priority Recommendations Made Since April 2012 Audit Committee**

	Corporate Resources/ ACE People and Organisation	Children's Services	Sustainable Communities	Social Care Health and Housing	Total	%

No work started Deadline missed RED	0	0	0	0	0	0
Total Recs.	10	0	0	6	16	100

20. Appendix D provides the details of the 2 recommendations contained in Table 2 where implementation of the recommendation is running behind planned completion dates.
21. Wherever possible evidence has been obtained to verify the implementation of recommendations. However, in some instances, verbal assurance has been obtained. Where this is the case, further evidence will be obtained to support the assurances given.
22. Progress will continue to be monitored. The follow up of audit recommendations forms an integral part of the managed audit reviews.

Future Monitoring

23. Officers responsible for the implementation of recommendations will be contacted regularly to provide updates on progress made. Evidence will be required to support progress made. Where recommendations are still being implemented these will continue to be monitored.

Conclusion

24. In total there are now only 4 recommendations that are now amber (underway, with deadline missed). No additional amber recommendations have been added since the last report to the Committee. The number of high priority recommendations being made has reduced, which reflects the embedding of controls within the key financial systems as the authority has developed.
25. Further work is required to ensure that the outstanding recommendations are implemented and to monitor additional recommendations made during the year.
26. This continuous tracking and reporting of progress on Internal Audit inspections to the Audit Committee ensures that the Committee has the means to monitor how effectively the high risk recommendations have been implemented.
