

Appendix C

Internal and Statutory Consultee Consultation

Comments were received from the following organisations:

- Central Bedfordshire Council (Building Control)
- Central Bedfordshire Council (Environmental Policy)
- Central Bedfordshire Council (Countryside)
- Central Bedfordshire Council (Leisure)
- Central Bedfordshire Council (Local Planning)
- Bedfordshire Internal Drainage Board
- Environment Agency

Comments reflected a number of topics including;

- The need to link clearly to existing statutory and local policy requirements
- The need to keep local SuDS requirements simple
- The need to include flood risk issues more explicitly
- Detail on content of sections on local SuDS zones
- The need to ensure the content in relation to both SuDS design and the adoptions process is bespoke to CBC
- The need to include information on dealing with SuDS design in challenging sites (e.g. those with high groundwater), and design for management and maintenance

These consultation comments were considered by the CBC project team and the consultants, and the draft has been amended to reflect these concerns and suggestions as far as possible.
