Staffing (including Trades Unions):

6. Not applicable.

Equalities/Human Rights:

7. This report highlights performance against a range of indicators which seek to measure how services impact across all communities in Central Bedfordshire, so that specific areas of underperformance can be highlighted for further analysis.

8. As such it does not include detailed performance information relating to the Council's stated intention to tackle inequalities and deliver services so that people whose circumstances make them vulnerable are not disadvantaged. The interrogation of performance data across vulnerable groups is a legal requirement and is an integral part of the Council's equalities and performance culture which seeks to ensure that, through a programme of ongoing impact assessments, underlying patterns and trends for different sections of the community identify areas where further action is required to improve outcomes for vulnerable groups.

RECOMMENDATION:

The Committee is asked to:

- **note and review Quarter One performance.**

Background

13. The Council's framework for performance management supports the delivery of the Council's priorities.
14. The following provides an overview of the performance position for Quarter 1. This is supported by the detailed performance information provided in Appendix A

Quarter One Performance Summary

15. Published Ofsted inspections show that 86% of schools and colleges are good or outstanding, which is good performance. Ofsted publish a similar indicator which does not include colleges or sponsored Academies which are yet to be inspected. This shows Central Bedfordshire compares well to statistical neighbours and national averages - as at 31 March 2014, 85% of Central

Bedfordshire Schools are good or better and the Statistical Neighbour Average was 79% and England 80%.

16. Performance data across children's safeguarding measures is good at the end of Quarter 1, 2014/15. Child protection reviews completed within timescales continue to achieve the 100% target.
17. The new Access and Referral Hub has added greater stability to the referral process and 81.7% of referrals have led to the provision of a social care service - achieving the 75% target. This indicator reflects the proportion of referrals that go on to receive further social care support, in most cases this will be to start an assessment. Detailed analysis of completed referrals has shown that assessments are started where needed and continue to focus correctly on the right children who need our services.
18. The ambitious target for 90% of assessments to be completed within 45 days has been achieved. The Q1 figure 92.8% demonstrates that performance is good. The new processes are now well established with, good performance expected to continue through 2014/15.
19. Children are placed in their permanent home without undue delay which is particularly important in enabling very young children to form positive emotional attachments. The average timescales from entering care and moving in with an adoptive family for the 3 years ending 30 June 14, was 533 days which is one day above the nationally set target, 9 days below our 2011/14 outturn and 97 days below the comparator average for 2012/13. There has been further improvement on last year and Central Bedfordshire continues to compare well to other local authorities. With more adoptions planned and shorter timescales in most cases it is expected that improvements will continue.
