The role of the LSCB is set out in legislation 'The Children Act 2004' and this is explained in government guidance "Working Together to Safeguard Children" (2013).  
<http://www.workingtogetheronline.co.uk/>

Section 13 of the Children Act 2004 requires each local authority to establish a Local Safeguarding Children Board (LSCB) for their area and specifies the organisations and individuals that should be represented on LSCBs. [In accordance with national guidance and in order to provide scrutiny the LSCB should be independent. It should not be subordinate to, nor subsumed within, other local structures.](#)

The LSCB has a range of roles and statutory functions including developing local safeguarding policies and procedures and scrutinising local arrangements. The statutory objectives and functions of the LSCB are described below:

The LSCB Chair must publish an annual report on the effectiveness of child safeguarding and promoting the welfare of children in the local area.

### **3. Local Safeguarding Adults Board**

The Care Act 2014 will set out the first ever statutory framework for adult safeguarding, which stipulates local authorities' responsibilities, and those with whom they work, to protect adults at risk of abuse or neglect.

These provisions require the local authority to:

- Carry out enquiries into suspected cases of abuse or neglect (clause 34)
- Establish Safeguarding Adults Boards in their area (clauses 35-36). The role of these Boards, described in Schedule 1, will be to develop shared strategies for safeguarding and report to their local communities on their progress.

#### **Government policy**

The coalition government policy on adult safeguarding states "The Government's policy objective continues to be to prevent and reduce the risk of significant harm to adults from abuse or other types of exploitation, whilst supporting individuals in maintaining control over their lives and in making informed choices without coercion. The Government believes that safeguarding is everybody's business, with communities playing a part in preventing, identifying and reporting neglect and abuse. Measures need to be in place locally to protect those least able to protect themselves." (Department of Health Statement of Government Policy on Adult Safeguarding May 2013)

The six principles which set the strategic aim of the Bedford Borough and Central Bedfordshire Safeguarding Adults Board are:

- Empowerment
- Protection
- Prevention
- Proportionality
- Partnership
- Accountability

The purpose of the joint Safeguarding Adults Board is to work in partnership to protect adults from abuse, maltreatment, neglect and prevent avoidable harm. To achieve this, the Board will:

- Challenge bad practice.

- Hold all local providers and partners to account
- Provide timely and proportionate interventions based on accurate assessment of risk and need.
- Prevent and reduce the risk of significant harm to adults at risk of abuse or other types of exploitation.
- Support individuals in maintaining choice over their lives and in making informed choices without coercion.

Through the Multi Agency Adult Safeguarding Policy, Practice and Procedures, members of the Safeguarding Adults Board and the organisations they represent, aim to achieve their commitment to:

- Safeguarding and promoting the independence, wellbeing and safety of adults at risk.
- Raising public awareness of safeguarding.
- Promoting work on the prevention of abuse.
- Tackling abuse in all settings.
- Ensuring that all staff and volunteers understand their roles and responsibilities in respect of safeguarding.
- Involving people who access services and carers in continual service improvements and the management and development of Safeguarding arrangements across Bedford Borough and Central Bedfordshire.
- Contributing and applying learning from serious case reviews.
- Ensuring that staff and volunteers are provided with appropriate training in safeguarding.

The Bedford Borough partnership boards operate a separate protocol which addresses local shared priorities, responsibilities and information sharing. The two protocols are complementary and have received inter-authority approval.

#### **4. Health and Wellbeing Board.**

The Health and Social Care Act 2012 created a common flexible framework, by requiring the establishment of a Health and Wellbeing Board. There is also a statutory duty on Bedfordshire Clinical Commissioning Group in the legislation to work in partnership with local authorities.

Central Bedfordshire Health and Wellbeing Strategy 2012-2016, (January 2013), outlines the vision for improving health and wellbeing and reducing health inequalities in Central Bedfordshire. This has been informed by the Joint Needs Assessment 2013.

The Children Act (2004) provided the legislative underpinning for Children's Trusts. This requires each local authority to appoint a Director of Children's Services and designate a Lead Member for Children's Services to have responsibility for education and children's social services. It also requires local authorities and their "relevant partners" to cooperate to improve children's wellbeing.

### **The main priorities of the Children's Trust are:**

- Improve educational attainment
- Protecting vulnerable children
- Early help and improving life chances
- Being healthy and positive.

The Central Bedfordshire Children's Trust is a local partnership that brings together those organisations that work together to improve children's lives and deliver the best possible services for families.

## **6. Community Safety Partnership**

Community Safety partnerships (CSPs) aim to reduce crime and disorder, anti-social behaviour and other behaviour affecting the local environment, as well as reducing the misuse of drugs, alcohol and other substances, reduce the fear of crime and increase public confidence in our service.

This coordinated approach was encapsulated in the Crime and Disorder Act 1998, which made it a statutory duty for each local authority area to have a Community Safety Partnership. In Central Bedfordshire the Community Safety Partnership is made up of representatives from five statutory partners. Community safety is an area of concern for all communities. It is consistently a high public priority, and one that can affect the quality of life for individuals and entire communities. In recent years it has been acknowledged that tackling community safety issues cannot be done by the police alone, but is dependent on a number of organisations, and services, working together to find solutions to community problems. From 1st April 2013, under the Health and Social Care Act 2012 Clinical Commissioning Groups will become a 'responsible authority' on the CSP, replacing Primary Care Trusts.

The CSP is statutorily responsible for reducing crime and disorder, substance misuse and re-offending in each local authority area. CSPs often take responsibility for the commissioning of services such as domestic violence, offender management and drug and alcohol services. Each CSP across the country is required to produce a Partnership Plan. This plan builds on the Partnership Strategic Assessment, which sets out the analysis of crime and disorder and identifies the priorities which we will focus our efforts into addressing.

### **CSP priorities for 2014-2015**

The priorities identified for 2014 – 2015 are:

- Reduce the number of victims of ASB and support those who are most vulnerable;
- Reduce the number of victims of Domestic Abuse and support those who are most vulnerable; and
- Reduce domestic burglary.

## 7. Ensuring the Board's are working well together

### Shared priorities and responsibilities

As set out above, the Boards cover a wide range of issues. However there are a number of shared priorities where [the named](#) Boards will need to ensure that leadership and accountability for issues is clear and that information is effectively shared. These shared priorities relate to protecting vulnerable adults and children from harm and include:

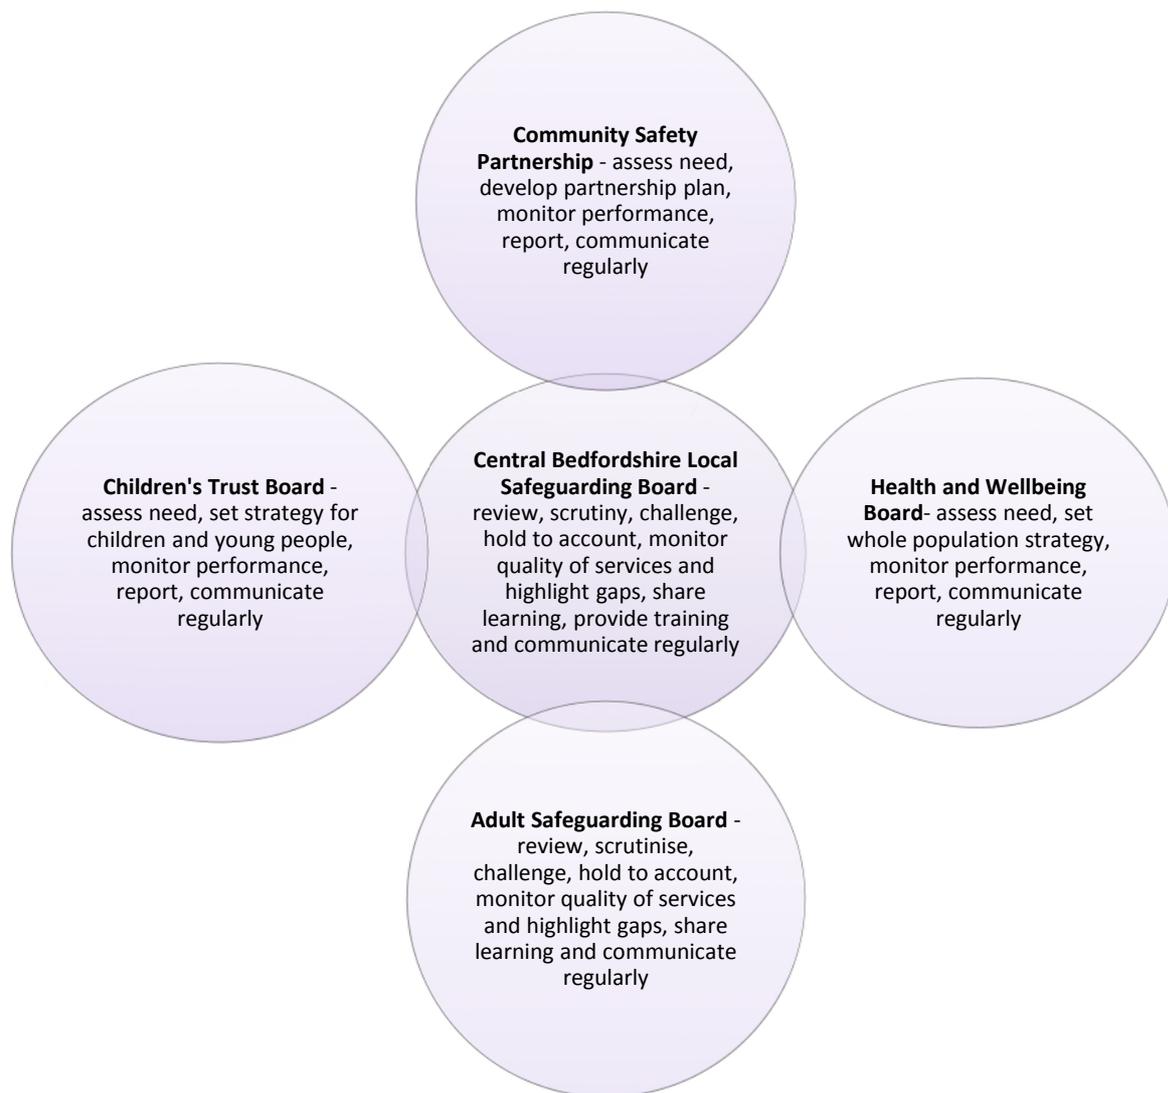

- domestic abuse
- mental health
- substance misuse
- other safeguarding issues such as [child sexual exploitation](#), antisocial behaviour, hate crime and human trafficking, and
- workforce sufficiency

### Leadership and accountability

- [The Local Safeguarding Children Board is the statutory lead partnership for ensuring the effectiveness of services that ensure the welfare and safety of children, including early help.](#)
- [The Adult Safeguarding Board is the lead partnership for ensuring the welfare and safety of vulnerable adults.](#)
- [The Community Safety Partnership has the strategic lead for understanding need, and performance in relation to domestic abuse, sexual abuse and re-offending issues.](#)
- [The Health and Wellbeing Board has the strategic lead for understanding need, and performance in relation to mental health and has identified domestic abuse and substance misuse as priorities issues.](#)
- [The Children's Trust Board takes a holistic view of the child and is responsible for understanding need, developing a broad strategy with partners and monitoring performance in relation to the agreed strategic partnership priorities.](#)

[Where children are approaching the transition to adulthood the Safeguarding Children Board and the Adult Safeguarding Board will need to work together to ensure arrangements in place are effective to support them through this transition and keep them safe.](#)

Workforce sufficiency, across the professions that deliver services in relation to the above priorities, remains a national and local issue. Sufficiency remains the responsibility of the agency with statutory responsibility for commissioning or delivering the services. Workforce sufficiency can be scrutinised by any of the Boards in relation to delivery of support services for families or individuals dealing with the issues above. Reports may be referred to another Board where there are sufficiency or quality concerns and where it is felt that Board should be aware of the impact in relation to its priorities around protecting vulnerable adults and children from harm.

## Mutual Challenge

The Boards through their chairs or at their direction will provide constructive challenge to each other across these issues identified above. This is to ensure that core priorities and business aims are met, and the commissioning of services is in line with safeguarding practices. The relevant Board will need to be alerted to any issues identified either through the chairs or via a report that is referred if the issue is complex and detailed.

[The following routes may be instigated when required:](#)

- [A chair can make a formal written request of another chair for information or consideration of an area of concern.](#)
- [A chair can make a request of another chair for an item to be placed on a Board meeting agenda to address a particular area of concern.](#)
- [A chair can request a meeting between Board Chairs \(and other representatives\) to consider and agree a way forward regarding issues that have not been resolved by the above.](#)

- [Where an area of concern cannot be resolved within the above framework, a resolution meeting will be held between Board Chairs, the Director of Children's Services and Central Bedfordshire Council's Chief Executive as a minimum.](#)

### **Information sharing**

Information will continue to be shared across the Boards through consultation on strategies, annual reports, inspection reports and through shared membership. [The following arrangements will promote information sharing:](#)

- [The Chairs and business managers will receive a copy of each other's agendas and minutes and note relevant recommendations and issues.](#)
- [The Chairs will meet annually following the publication of Annual Reports to inform planning and priorities for the following year and to review the Risk Log held by the Local Safeguarding Children Board.](#)
- [The Chairs will formally report their Annual Reports to each Board.](#)
- [Business managers will share agendas and minutes from operational meetings and will meet quarterly to ensure effective information sharing and alignment of agenda setting.](#)

Members who sit on more than one Board are expected to attend meetings regularly. They have a key role in ensuring they represent their organisations and share information on the issues and concerns being discussed at both Boards. They are a key mechanism for linking and sharing information at this strategic level.

There is the following common membership across the Boards:

- the Chief Executive (CBC) sits on the Children's Trust Board and the Health and Wellbeing Board;
- the Director of Adult Social Care (CBC) sits on the Adult Safeguarding Board and the Health and Wellbeing Board;
- the Assistant Director, Operations (CBC) and the Assistant Director, Adult Social Care (CBC) both sit on the Central Bedfordshire LSCB and the Adult Safeguarding Boards
- the Assistant Director, Operations (CBC) sits on the Central Bedfordshire LSCB, the Adult Safeguarding Board and the Community Safety Partnership
- the chair of the LSCB is also a member of the Children's Trust Board
- the Chief Operating Officer is a member of the Children's Trust and the Health and Wellbeing Board
- the Director of Children's Services and the Executive Member for Children's Services sit on the LSCB, the Children's Trust and the Health and Wellbeing Board
