**Promoting the School Nursing Service in your school**

- Working at community, family and individual levels providing holistic, individualised and population health assessments working in partnership with schools, parents/carers and pupils.
- Ensuring children and young people with additional and/or complex health needs are supported.
- Providing health promotion and health intervention training and support for school communities.
- Delivering School Health Assessments and the National Child Measurement Programme (NCMP) in Years R & Year 6, and all school-based immunisations.
- Providing a weekly 'Drop-In' Service in schools, for all pupils from Year 7 upwards.
