

CENTRAL BEDFORDSHIRE HEALTH AND WELLBEING BOARD

Date of Meeting

24 January 2018

Health and Wellbeing Scorecard

Responsible Officer: Muriel Scott, Director of Public Health
Email: Muriel.scott@centralbedfordshire.gov.uk

Advising Officer: Celia Shohet, Assistant Director of Public Health
Email: celia.shohet@centralbedfordshire.gov.uk

Public

Purpose of this report

1. To present the latest performance data in the priority areas of the Joint Health and Wellbeing Strategy

RECOMMENDATIONS

The Health and Wellbeing Board is asked to:

1. **To review the scorecard and assess the progress in delivering the Joint Health and Wellbeing Strategy; and**
2. **To consider the action identified for the Health and Wellbeing Board, outlined on each scorecard**

Issues

2. The Joint Health and Wellbeing Strategy has four cross cutting priorities where the Board wants to make the fastest progress. These are:
 - Ensuring good mental health and wellbeing at every age
 - Giving every child the best start in life
 - Enabling people to stay healthy for longer
 - Improving outcomes for frail older people
3. The scorecard includes the key measures providing an indication of progress against target, direction of travel and a comparison with benchmarks.
4. The scorecard includes a range of measures which have been chosen because they:

- Directly measure the desired outcome or a process measure when an outcome measure is not available e.g. access to care measures.
 - Are generally measures already in existence and therefore do not require additional resource to collect.
 - Represent a range in frequency of reporting from monthly to annually.
 - Are available at CBC level and in some cases at either a locality, practice or ward level.
5. The scorecards now contain the successes, challenges and suggested actions for the Board rather than outlining them separately in the covering report.

Financial and Risk Implications

6. There are no financial implications directly associated with the scorecard.

Governance and Delivery Implications

7. The scorecard will be reported to the Health and Wellbeing Board on a six monthly basis.

Equalities Implications

8. The PSED requires public bodies to consider all individuals when carrying out their day to day work – in shaping policy, in delivering services and in relation to their own employees. It requires public bodies to have due regard to the need to eliminate discrimination, harassment and victimisation, advance equality of opportunity, and foster good relations between in respect of nine protected characteristics; age disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

Implications for Work Programme

9. The scorecard is currently reported to the Health and Wellbeing Board at each meeting but will need to be reviewed in line with the new JHWS when this is developed.
10. The Board may wish to consider a focus on the outcomes for access to psychological therapies and recovery rates for those completing psychological therapies at a future meeting if this has not been sufficiently covered earlier in the meeting.

Conclusion and next Steps

11. The scorecard shows some improving performance and some areas of concern. A number of areas have been identified for further consideration at future board meetings.

Appendices

12. The following Appendix is attached:
Summary scorecards for each of the priority areas.
