

## **COUNCIL MEETING – 15 NOVEMBER 2018**

### **Recommendation to Council from the Licensing Committee held on 5 October 2018**

#### **L/18/7. Review of Street Trading Policy**

The Service Manager for Public Protection presented the report on the Review of the Street Trading Policy.

Points and comments included:

- The current policy had been in use for some years and this was an opportunity to review and update it.
- Consent would be required to trade from public land such as a car parks or side of the road.
- Concerns were raised that a stall could set up anywhere and it was noted that although there were no designated streets listed as prohibited for street trading, police and highways would always be consulted if an application was received for consent to trade.
- It was noted that if there were any issues arising from a street trader such as odour problems if selling cooked food, this would be dealt with by Environmental Health in the usual way.

#### **RESOLVED**

**that the Committee approve changes to the current Street Trading Policy.**

#### ***RECOMMENDED to Council***

***to adopt the revised Street Trading Policy, as set out at Appendix C to the Licensing Committee minutes.***
