Dear Licensing Section; Central Bedfordshire Council,

In regards to the application from the ESSO Garage at MRH Stotfold, 67, Arlesey Road Stotfold to open 24 hours.

We strongly disagree with the application. We are in a quiet residential area and feel that this will cause disturbance with traffic noise at all hours of the night plus the lighting of the forecourt lights up the gardens that back on to it which is totally unfair and is unacceptable.

My friend lives at No [redacted] and has asked me to mention that she is very upset that her garden will be lit up all throughout the night!

Apart from the disturbance to residents, we also feel that this would set a precedent to say that it is ok to 'drink and drive' - in a society where the law is trying to stop such offenders.

With the new football club just down the road, will it also encourage late night disturbances in the area?

Regards,

[redacted signature block]
