Due to rising fuel costs the rates for the transport fleet were revised during 2008/09. The rates listed as 2008/09 below are valid from September 2008 brought to July 2009. On 1st September the hourly rates were each increased by £5 and the per mile rate doubled from 45p to 90p. These rates may be subject to further review dependent on fuel and other costs. The rates are designed to recover the total cost of running this service. During School holidays these vehicles can be made available all day. There is generally no charge for dead mile age to and from the establishment. However, journeys that involve "take and drop" or "pick-up" only may incur mileage charges.
