

**Children's Services Overview and Scrutiny Committee**  
**20 November 2018**

Supplement information in relation to item 11, Outcome of the School's Funding Formula Consultation, amended wording following feedback from the legal department.

**Original wording:-**

3.2 Whilst the majority of responses received did not support the transfer of funding from the Schools Block to the High Needs Block (question 19 in the table above), the very small response rate mean that objections have only been received from a small proportion of Central Bedfordshire's schools (7.5%).

**Amended wording:-**

3.2 The response rate was very small and therefore the objections represent only 7.5% of Central Bedfordshire's schools. Despite the small number of responses, the objections were carefully considered, however the analysis remains in support of the transfer of funding from the Schools Block to the High Needs Block (question 19 in the table above), for the reasons set out in this report.
